SOMERSET v ULVERSTONE

1-2 Loss

With Ulverstone sitting 4th on the ladder and this being the first game of the second half of the season, I thought this would be a good judge for me as a coach and the teams performance to see just where we're at.

Even though we didn't win, this was so far the best game we have played, having around 70- 80% of the play, with a lot more shots on goal than our opponents, just unable to convert.

Every player put in their top efforts, which definitely showed, when you work hard the rewards will come. It has taken the whole first half of the season to find the right positions for most players, now hopefully we can stick to it, move on and improve our game every week.

With Simon Good as sweeper, controlling our defence, Nigel Harris controlling the midfield and to the rest of the players;

Well done, unfortunately this was one that did get away from us.

Peter Williams.
