SOMERSET v PROSPECT KNIGHTS

0-6 LOSS

We all thought we were in with a chance to win, or if not get a draw against Prospect, but this wasn't the case.

The first half was very well played by us, making Prospect take long range shots, getting a lucky ball off a corner, which our defence failed to get a foot to, and Prospect getting a lucky deflection off their forward.

Heading into half time we were only 1-0 down and the game could still go either way.

With Prospect and us both reduced down to 10 men due to red cards, it was still a fair game.

The Sharks had many shots on goal but unfortunately not being able to hit the back of the net was frustrating our forwards.

Losing Simon Good at half time I

believed lessened our chances, as he talked well and controlled the defence line very well.

It was easy to see our fitness let us down as the last 20-25 mins of the game the opposition ran all over us scoring 5 easy goals.

If only we could take our chances when we had them, it would've changed the confidence in the team and lifted our spirits and we could've done a lot better, if not won the game.

Heads up guys, we are getting better and definitely working harder as a team, it will come, just need to start scoring some goals! :)
